PRESS RELEASE – May 2013

Another operation closed by 3E in the Management Consulting sector

Advised by 3E, I.C.B.S EFFICAP ENERGIE's holding, acquired CARRON CONSULTANTS

Mr Eric LENNE, SUPELEC engineer, left in 2009 the IT Training Company KIODAN he had founded, developed and divested to a listed group.

Since then, he created an energy efficiency consulting business, EFFICAP ENERGIE and wished to develop it further. He then contacted 3E to assist him to acquire a consulting or engineering firm dealing with these issues and several targets were analyzed.

During this process, the founder of CARRON CONSULTANTS (CCSA) had approached 3E to find a successor. The support process for certification around Quality or Environmental standards, CCSA core business, seduced Mr LENNE who had planned a similar approach for Energy standards and could thus offer a new development stage to CCSA with a larger services range.

This mission entrusted to 3E was recently concluded successfully demonstrating its expertise in the Management Consulting firms sector.

About CARRON CONSULTANTS SA

Founded in 1988, CCSA is a management consulting firm with about ten consultants, specialized in Consulting, Auditing and Training offering primarily to support certification for quality, environment standards, and sustainable development approaches for service companies, mainly in the sectors of health, regulated professions and banking / insurance.

About I.C.B.S – EFFICAP ENERGIE

Founded in 2009, firm specializing in energy efficiency (audits, reports, studies, training) gathering a group of experts dedicated to energy saving with a fast ROI and consumption management for companies and industrial sites.

About 3E

Created 28 years ago and led by Eugene EISENBERGER, SUPELEC engineer, HARVARD, HEC Entrepreneurs jury, 3E advises divestitures, mergers and acquisitions, and financial transactions such as LBO / OBO. 3E has many references in the Information Technology, Electronics, Training, Media and Consulting sectors.
